ALGO PERABILITY

THE NEXT BRIDGE GENERATION

Pitch

PROBLEMS

The number of blockchains keep increasing and forces users to constantly need to create new wallets to enter new blockchains and lower their Web3 experience.

PROBLEMS

Today's bridges lock assets on a chain and emit synthetics on the destination chain that **lose the privileges** of the initial asset.

OUR SOLUTION

CROSS CHAIN DIGITAL ASSETS MANAGEMENT

OUR BUSINESS PLAN

Ensuring Financial Positivity:

- ❑ Performing a gas estimation plus adding a minor percentage to compute the cost of a service call for a user.

Our Revenue:

- ❑ Fixed added commission
- ❑ Leftover of that gas estimation
